NCANDS CHILD FILE: CODE BOOK

#1: Submission Year

Name: SubYr

Group: Report Data

Data Type: F4

Definition: The submission year is the Federal Fiscal Year 12-month period. The Federal Fiscal Year is from October 1 through September 30. All records in the data submission must have report disposition dates that fall within the Federal Fiscal Year. The report date may have occurred in a previous year. All records must have the same year in this field.

Note: Only reports with completed investigations in the current submission year are subject to inclusion. Pending investigations should not be included.

#2: State or Territory

Name: StaTerr

Group: Report Data

Data Type: A2

Definition: The U.S. Postal Service two character abbreviation for the State or Territory submitting the Child File.

Note: If MalDeath = 1 (Child Died), then this variable is recoded to "XX" (Not Provided for Confidentiality Reasons)

#3: Report ID

Name: RptID

Group: Report Data

Data Type: A12

Definition: This identification is not the actual state report identification, but is an encrypted identification assigned by the state for the purposes of the data collection. The Report ID should be unique within the state, only used for this current report and never used again. A report can have more than one child associated with it. Thus the same Report ID can occur in more than one record. The encrypted identifier should be left-filled with zeroes, as needed, to the 12 character length.

Note: If MalDeath = 1 (Child Died), then this variable is suppressed (recoded to "XXXXXXXX")

#4: Child ID

Name: ChID

Group: Child Data

Data Type: A12

Definition: A unique identification assigned to each child. This identification is not the State child identification but is an encrypted identification assigned by the State for the purposes of the NCANDS data collection.

Note: If MalDeath = 1 (Child Died), then this variable is suppressed (recoded to "XXXXXXXX")

#5: County Of Report

Name: RptCnty

Group: Report Data

Data Type: F3

Definition: The jurisdiction to which the report of alleged child maltreatment was assigned for a CPS response. The unique identification number assigned to the State and county under the Federal Information Processing Standards (FIPS) guidelines is preferred.

Note: In the contributed data, this variable has values 001-999. Because states use the same county numbers, we add the (1 or 2-digit) State FIPS code at the front. The resulting code is a four or five-digit number. The last three digits are the county code. For counties that have fewer than 1000 cases, -1 is substituted for the County Code. The names and FIPS codes of all counties with 1000 or more records is included at the end of the Codebook. If MalDeath = 1 (Child Died), this variable is recoded to -1 (Not Provided for Reasons of Confidentiality)

Values:-

1	County Has Fewer Than 1000 Records
998	Out of State
999	Unknown or Missing

#6: Derived: State/County FIPS Code

Name: RptFIPS

Group: Report Data

Data Type: A5

Definition: The state and county FIPS code of the jurisdiction to which the report of alleged child maltreatment was assigned for a CPS response. It may or may not be the child's county of residence.

Note: Derived from RptCnty. The first two characters are the state code; the last three are the county code.

XX999 = State code with missing county

XX000 = State code and county; fewer than 1000 records

00000 = Child Died

#7: Report Date

Name: RptDt

Group: Report Data

Data Type: DATE11

Definition: The month, day, and year that the responsible agency was notified of the suspected child maltreatment.

Note: In the Contributed File, this var is continuous. On output, it is rounded to the 1st or the 15th in this manner: Days 1-15 rounds to 8th of month Days 16-31 round to 23rd

Values:

8 Days 1 through 15

23 Days 16 through 31

#8: Report Time

Name: RptTm

Group: Report Data

Data Type: TIME5

Definition: The hour and minute when the responsible agency was notified of the suspected child maltreatment.

Note: Times are are in 24-hour format and are rounded to the nearest hour, reported on the half-hour. So, for example, 15:30 means between 3:00 PM and 3:59 PM.

#9: CPS Response Start Date

Name: InvDate

Group: Report Data

Data Type: DATE11

Definition: The date when CPS first had face-to-face contact with the alleged victim of child maltreatment.

Note: Not all states provide this date. If the state's definition includes contacting the alleged victim or other collaterals then the state should fill this field. If the state's definition of investigation start date is at the point of transfer to an investigation worker or unit, then the state should not fill this field. If the state's definition is any attempted contact, then the field should not be filled. This date has been adjusted so that the interval between it and the report date is preserved after the report date has been rounded to either the 8th or the 23rd of the month.

#10: Investigation Contact Time

Name: InvStrTm

Group: Report Data

Data Type: TIME5

Definition: The hour and minute when CPS first had face-to-face contact with the alleged victim of child maltreatment.

Note: Times are in 24-hour format and are rounded to the nearest hour, reported on the half-hour. So, for example, 15:30 means between 3:00 PM and 3:59 PM.

#11: Report Source

Name: RptSrc

Group: Report Data

Data Type: F2

Definition: The category or role of the person who makes a report of alleged maltreatment.

Values:

- | | |
|----|---|
| 1 | social services personnel |
| 2 | medical personnel |
| 3 | mental health personnel |

#12: Report Disposition

Name: RptDisp

Group: Report Data

Definition: The determination reached by the responsible agency regarding the report of maltreatment pertaining to the child in the record.

Note: This is the final finding or disposition of the Report. If at least one maltreatment for any child in the report is "substantiated", all records (children) with this same Report ID should have this Report Disposition set to "substantiated". If all maltreatments for all children in the report are "unsubstantiated", all records (children) with this same Report ID should have the Report Disposition set to "unsubstantiated". Thus, this variable cannot be used to determine the substantiation of a particular child. It pertains only to the Report.

Values:

1	substantiated
2	indicated or reason to suspect
3	alternative response disposition-victim
4	alternative response disposition-not a victim
5	unsubstantiated
6	unsubstantiated due to intentionally false
