PREFACE

The data for *Adoption and Foster Care Analysis and Reporting System (AFCARS), 1999*, have been given to the National Data Archive on Child Abuse and Neglect for public distribution by the Children's Bureau. Funding for the project was provided by the Children's Bureau, Administration on Children, Youth and Families, Administration for Children and Families, U.S. Department of Health and Human Services.

ACKNOWLEDGEMENT OF SOURCE

Authors should acknowledge the National Data Archive on Child Abuse and Neglect and the original collector of the data when they publish manuscripts that use data provided by NDACAN. Users of these data are urged to follow some adaptation of the statement below.

> The data used in this publication were made available by the National Data Archive on Child Abuse and Neglect, Cornell University, Ithaca, NY, and have been used with permission. Data from the *Adoption and Foster Care Analysis and Reporting System (AFCARS)* were originally collected by the Children's Bureau. Funding for the project was provided by the Children's Bureau, Administration on Children, Youth and Families, Administration for Children and Families, U.S. Department of Health and Human Services. The collector of the original data, the funder, NDACAN, Cornell University and their agents or employees bear no responsibility for the analyses or interpretations presented here.

PUBLICATION SUBMISSION REQUIREMENT

In accordance with the *Terms of Use Agreement* for these datasets, users of these data are required to deposit a copy of any published work or report based wholly or in part on these data with NDACAN. A copy of any completed manuscript, thesis abstract, or reprint should be sent to the National Data Archive on Child Abuse and Neglect, Cornell University, Family Life Development Center, Surge 1, Ithaca, New York 14853. Such copies will be used to provide funding agencies with essential information about the use of NDACAN resources and to facilitate the exchange of information about research activities among data users and contributors.

Purpose of the 1999 User's Guide Supplement

The *AFCARS User's Guide Annual Supplement, 1999* is intended for use with the *Adoption and Foster Care Analysis and Reporting System (AFCARS) User's Guide and Codebook*. The *User's Guide* contains a general overview of the AFCARS project and detailed descriptions of the variables contained in the adoption and foster care files. This *Supplement* contains information specific to the 1999 AFCARS datasets, *AD1999v3* and *FC1999v4*. There are six sections presented in the following order:

- a table indicating whether a state submitted data in the years 1995 through 1999
- a table of adoption and foster care record counts for the 1999 files
- counts of adoption and foster care variables by state in the 1999 files
- a listing of the geographic FIPS codes included in the 1999 v4 foster care dataset
- explanatory footnotes provided by the states
- additional data considerations, if any, conclude the document

_____

History of State Adoption Submissions to AFCARS

By AFCARS regulation, states were required to submit AFCARS data beginning in 1995; it was not until 1998, however, that penalties established by the same regulation became applicable. Data submitted prior to 1998 were often incomplete. The table below indicates the years in which individual states submitted adoption data. Please note that a black square in a cell below does not imply that a state's data file was complete; some state files contained very few records. The number of records in each state's files is contained in the *State Records Counts Table* for the year.

History of State Foster Care Submissions to AFCARS

By AFCARS regulation, states were required to submit AFCARS data beginning in 1995; it was not until 1998, however, that penalties established by the same regulation became applicable. After 1998 some states were excluded from the annual datasets either because they did not make the three required data submissions or the data were of insufficient quality to be usable. The table below indicates the years in which individual states submitted usable foster care data. Please note that a black square in a cell does not imply that a state's data file was complete; some state files contained very few records. The number of records in each state's files is contained in the *State Records Counts Table* for the year.

1999 Unduplicated Record Counts

States submit data to AFCARS twice a year; the first reporting period ends April 30 and the second September 30. Prior to each annual release, the Children's Bureau combines submissions for the two reporting periods and removes duplicate records. The table that follows lists the number of adoption and foster care records contained in the unduplicated annual 1999 files by state.

1999 v3 Adoption Variable Counts By State

The first column in the following table contains the names of the variables in the adoption file. Please refer to the *AFCARS User's Guide and Codebook* for more information about specific variables. Subsequent columns contain the number of records with non-missing values for the variable in the state identified in the column heading. The first row, which appears in bold, indicates the maximum number of records for the state. Reviewing the table before attempting an AFCARS analysis can be useful. For example, looking down Florida's column, it is apparent that the state did not submit information about the mother's year of birth (DOBYRMOM) in 1999.

1999 v4 Foster Care Variable Counts By State

The first column in the following table contains the names of the variables in the foster care file. Please refer to the *AFCARS User's Guide and Codebook* for more information about specific variables. Subsequent columns contain the number of records with non-missing values for the variable in the state identified in the column heading. A complete set of a state's variables spans two pages. The first row in the set, which appears in bold, indicates the maximum number of records for the state. Reviewing the table before attempting an AFCARS analysis can be useful. For example, looking down New York's columns, it is apparent that the state did not submit CLINDIS, MR, VISHEAR, or PHYDIS, that is, disability information, in 1999.

FIPS Codes Used in the 1999 v4 Foster Care File

Below is a listing of the geographic Federal Information Processing Standard (FIPS) codes included in the 1999 v4 dataset. The regions listed had 1,000 or more records in the annual database. For regions with fewer than 1,000 records the FIPS code is not provided, and a value of *8* (*Not provided for reasons of confidentiality*) is assigned.

1999 State Footnotes

States are encouraged, but not required, to provide explanatory footnotes with each of their two submissions per fiscal year. The footnotes allow states to provide additional information they consider necessary for proper interpretation of their data. The footnotes may include such information as:

- general characteristics of the state's adoption and foster care system
- characteristics of the population, including whether certain types of placements are included
- state definitions that differ from federal AFCARS definitions.

Footnotes for the 1999 versions of both the adoption and foster care data follow, sorted by state and element number. The submission period, either March (*03*) or September (*09*), is noted. General state footnotes that are not specific to an element or period are given an element number of *00*. The *A* or *F* preceding an element number identifies it as an adoption or foster care element, respectively.

Florida (cont.)	03, 09	A37	Includes only children entered in the Child Welfare Vouchering System (CWVS) and the Client Information System (CIS) with the same client identification number.
	03, 09	A37	Coded *Yes* if payment was made for maintenance subsidy - Title IV-E.
	09	F00	Records have been selected for extraction based on actual dates in care.
	09	F00	Relative placement records are selected based on their living arrangement at the date of extract since history is not available; these values could vary from those during the reporting period.
	09	F03	Where the service area includes multiple counties, the child's residence county is used if among the counties served, else the home office county is used.
	09	F04	A sequential number is created and stored in the state data base for the child.
	09	F09	Effective January 17, 1996, FL began capturing ethnicity for subjects of new abuse reports. This data is not yet available for all children in care.
	09	F10	Entry in state diagnosis fields is optional and does not necessarily mean there has not been a diagnosis; therefore no entry is coded as missing (blank).
	09	F15	Based on state code for other developmental disability.
	09	F28	Includes state codes for neglect and mental injury.
	09	F34	Includes state codes for runaway, truancy and beyond control.
	09	F37	Includes state code for other dependency; other dependency includes parent deceased or incarcerated which cannot be separated under F35 and F36.
	09	F41	Trial home visits are not captured.
	09	F41	Delinquency, alcohol, drug abuse and mental health residential programs are coded as institutions because the majority would meet that definition, although a few would qualify as group homes; hospitals are coded as institutions.
	09	F43	State code for custody on a permanent basis to a foster parent is coded as long term foster care; relative and non-relative care (short-term) and guardianship cannot be distinguished from reunification.
	09	F58	Placement with legal guardian (not a relative) cannot be distinguished from reunification with parents.
	09	F58	Transfer to another agency includes Juvenile Justice,

Hawaii	09	A17	This data is not always available when the child is adopted as it is not on the birth certificate, father is unknown or has moved away and cannot be located.
	03	F05	Report period 10/01/98-03/31/99 corrective action related to F05 - periodic review: this was the primary element for corrective action for report period 10/01/98-03/31/99.
	03, 09	F41	A number of children previously reported in group setting were actually in non-relative family homes. Some children previously reported in institutional setting were actually in group setting. Prior reporting was in error.
	03, 09	F41	A system correction was made to report accurately the number of children in non-relative family homes, groups, and institutions. For each prior report period, the numbers in group and in institutional settings were inflated.
	03	F56	Report period 10/01/98-03/31/99 corrective action related to F05 - periodic review: corrective action required that this transmission include approximately 20 additional episode terminations after 03/31/99 with discharge dates prior to 04/01/99. The duration (i.e. <6 months) of these closed episodes would not have required F05. The only viable correction for these records is to transmit them now as closed even though their discharge dates prevented them from the 5/99 transmission for that period.
	03	F57	Report period 10/01/98-03/31/99 corrective action related to F05 - periodic review: the number of erring records and penalty rate have increased for this element because of the approximately 20 additional discharges (related to reporting the correction of F05). As described for F56, this transmission includes episodes terminated after

New Mexico (cont.)			and some missing data problems are still being handled.
	03, 09	A04	The report contains only children with state agency involvement.
	09	A18	The adoption piece of the database needed a flag indicating this information. The flag field was added in a September release of the online piece of FACTS. Although the flag is there, the release was so close to the end of the reporting period that workers were not able to populate the field with needed information. Manual entry of that field was completed again for this reporting period.
	09	A35	The system does no currently have the processing functionality to link adoption decree to adoption case. As a result, all adoption records do not reflect that all children are receiving IV-E.
	03, 09	F00	NM implemented a computer system in 1997 (FACTS) for tracking of adoption, foster care and child care clients and some missing data problems are still being handled.
Pennsylvania	09	A03	There are two duplicate adoption records found by record I.D. Children are twins - county did not have proper distinctive record numbers.
	09	F00	Number of shared case management with Juvenile Justice System: 3,007.
	09	F00	Two records were deleted from the AFCARS database. Two counties had included two children, in report period 1999/03, that should not have been part of AFCARS population.
	09	F04	There were 151 records that had record number changes from report period ending 1999/03 to the current report period 1999/09.
	09	F58	Total Number of Deaths: 14. Caused by: accident (3); natural causes (11).
South Carolina	09	F00	SACWIS was made operational on September 14, 1998; therefore the overwhelming majority of data contained in this AFCARS report is data converted from the foster care tracking and foster care licensing legacy systems.
	09	F00	Interfaces were used to obtain data from the following systems: DSS child support system, DSS CHIP system, DSS foster home payment system, DSS medically fragile PC system, DSS managed treatment services PC system, DSS CIS system and the DSS SDX system. 	09	F05	Number of reviews not completed timely is inflated. Data reflects reviews not completed for youth over age 18. Age 18 is the age of majority for the state. State statute does not require review of youth over age 18.
	09	F22	If date equals 19980912, this is a result of loading data from the legacy system into SACWIS. See memo from the agency to Children's Bureau dated October 1, 1997 in accordance with waiver request (log no. Acyf-cb-pi-97-02). This waiver exempts the state from penalties.
	09	F41	Number of placement settings in group care may be inflated due to manual conversion of data and staff becoming accustomed to new coding.
	09	F57	Number of cases with discharge date posted more than 60 days after actual discharge date is inflated due to manual conversion of data and staff becoming accustomed to use of SACWIS. Some late posting dates may reflect efforts to correct problems (case deleted, then reentered).
